No interest will be paid on sums provided as security cover.

6. CHARGES AND PAYMENTS

6.1 For each billing period Yü Energy shall invoice you for all utilities supplied to the premises and any other amounts due under this agreement by means of an e-billing facility. This facility shall be, at Yü Energy's discretion, an invoice to an email address maintained by you, a paper invoice delivered by post to your registered address, an upload to an e-billing account or via the customer portal.

6.2 You shall be responsible for payment for all sums relating to the Utilities supplied to you at Agreed Supply Rates or Extended Supply Rates (or such other rate as is in force from time to time as set out in this Agreement)

6.3 If a suitably qualified subcontractor's meter reading or actual consumption data is not available, or if Yü Energy reasonably believe it to be inaccurate, Yü Energy may issue an invoice based on your own meter reading or Yü Energy's reasonable estimate and you shall pay the amount set out in that invoice. Any over or under-payment shall be adjusted as soon as practicable (typically on your next bill) once actual or more accurate information becomes available.

6.4 Any charges incurred by Yü Energy as a result of meter reading visits outside the normal meter reading cycle, or of visits for work including, for example, change of measurement class, supply upgrades, transfer of metering equipment and your failure to accommodate such appointments, or other charges levied by industry participants will be chargeable to and payable by you unless in fulfilment by Yü Energy of a legal obligation.

6. Charges and Payments

6.5 The capacity shown on the quote is indicative only. Yü Energy shall invoice you for capacity based on information provided to Yü Energy from time to time by your Network Operator. If you require a change to your capacity you must agree to it in advance with your Network Operator. Yü Energy shall also pass through to you any reactive charges levied on Yü Energy by the Network Operator.

6.6 All sums payable under this agreement are stated exclusive of VAT, CCL and the Green Gas Levy and any other government taxes which are payable at the applicable rates, as in force and shown in the invoice from time to time and subject to change by the government.

6.7 You agree to pay Yü Energy's invoices in cleared funds within 7 days of the date of the invoice by direct debit. Any other method agreed in the quote represents a non-standard process and will attract an administration charge.

6.8 If your quote is based on payment by direct debit and you fail to provide or cancel a direct debit mandate or for whatever reason the direct debit is not collected:

- (a) Yü Energy may resubmit the request for the direct debit within 2 days of the initial direct debit rejection and if it is not paid then;
- (b) Yü Energy may give you notice to terminate this agreement for your irremediable material breach pursuant to clause 13.2(b) if the direct debit is not re-instated and full payment is not received within three business days following the resubmission as described at clause 6.8(a) above;
- (c) Yü Energy may transfer you onto its Payment Default Plan until you pay all sums in full;
- (d) Yü Energy will levy a late payment administration fee in respect of Yü Energy's extra administration costs as set out on Yü Energy's website; and
- (e) Yü Energy may carry out a credit assessment and require that you put in place a security deposit.

6.9 If you fail to pay any undisputed amounts due to Yü Energy under this agreement by the due date for payment, then, without limiting Yü Energy's remedies under this agreement:

- (a) Yü Energy may remotely or manually disconnect your utility supply in accordance with clause 8 or, where appropriate metering equipment is installed, transfer your credit account to a prepayment account;
- (b) you shall pay Yü Energy a late administration payment fee as set out on Yü Energy's website in respect of each overdue amount;
- (c) Yü Energy may levy charges in accordance with its Payment Default Plan until you pay all sums in full:

6. Charges and Payments

- (d) you shall pay Yü Energy interest on the overdue amount at the rate of 8% per annum above the Bank of England base rate. Such interest shall accrue daily from the due date until actual payment of the overdue amount, whether before or after judgment and you shall pay the interest together with the overdue amount;
- (e) Yü Energy may levy additional costs and charges related to recovering any debt from you;
- (f) charges based on reasonable estimates of consumption for the subsequent 2 months of any remaining agreement become immediately due;
- (g) request a security deposit;
- (h) Yü Energy may request that you install a smart meter at the premises and switch the meter to pre-pay mode; and
- (i) Yü Energy reserves the right to amend your contract prices or move you to our Freedom Rates in accordance with clause 9.1.

6.10 Yü Energy may set off any amounts received from you, or owing to you, against any other agreement between you and Yü Energy (including, for the avoidance of doubt, agreements in respect of other energy products). You may not deduct or set off any payments to be made under this agreement against any amounts due from Yü Energy, except where Yü Energy have issued a credit to you.

6.11 The sums payable under this agreement may include commission paid to a broker or consultant acting on your behalf. It is your responsibility to ensure that you fully understand the nature of such third-party intermediary fees. If you dispute any such fee you should seek to resolve the dispute with that third party intermediary. Yü Energy shall not be obliged to reimburse any proportion of sums paid to Yü Energy (whether or not such portion relates to a third-party intermediary's fees) in the event of any such dispute. Yü Energy accepts no liability for the actions or representations of any third party.

6.12 If, at any time during or after the Supply Period, Yü Energy discover that any invoice Yü Energy have sent to you was inaccurate Yü Energy shall submit a revised invoice or reconciliation invoice as soon as practicable (typically next bill), when accurate information becomes available. For the avoidance of doubt, this clause survives termination of the agreement.

6.13 You acknowledge and agree any charges set out in this clause 6 or as detailed on our website here: <https://www.yuenergy.co.uk/you-support/> represent a genuine estimate of Yü Energy's additional costs arising upon your failure to make any payment due to Yü Energy by the due date for payment and do not represent a penalty.

6. Charges and Payments

6.14 Where you are a Micro Business, and Yü Energy issues an invoice, or otherwise seeks to recover (including via a prepayment meter) charges from you ("**Charge Recovery Action**"), Yü Energy will only do so in respect of:

- (c) Ofgem specifies an alternative exception in writing.

6.16 Where your account with Yü Energy is in credit, Yü Energy shall repay you any credit (which remains after any set-off against any payments you owe to Yü Energy in accordance with clause 6.10) provided that Yü Energy reserves the right (acting reasonably) to retain any credit amounts required for the purposes of setting off against your future estimated energy consumption.

6.17 The prices applicable to your supply are set out in your Welcome Pack and these terms and conditions. You can find out more about your charges on our website.

6.18 For Flex Customers, Yü Energy are permitted to change any pass-through cost element of your charges by a reasonable and proportionate amount as directed by the relevant organisation, at any time during the Supply Period, so as to minimise the amount of any reconciliation invoices. Yü Energy shall provide reasonable notice in such circumstances, together with evidence to demonstrate why your charges have been varied and to support the substitute charges.

7.4 If Yü Energy, its representatives or suitably qualified subcontractors are unable to gain safe and reasonable access to the metering equipment and/or the metering points at any time Yü Energy may pass on the costs incurred as a result of any aborted visit and notify you of the situation and if it is not rectified to Yü Energy's satisfaction within one month of receipt of notice, Yü Energy shall terminate this agreement in accordance with clause 13.2(j) and shall pass through to you any additional costs incurred by Yü Energy as result of such failure.

7.5 You will not tamper or interfere with the metering equipment or metering points and shall ensure that they are not damaged. Either Party may notify the other that its accuracy is disputed, and the metering equipment shall be examined in accordance with the Act as soon as practicable. Where a meter operator is appointed by Yü Energy, a mobilisation charge will be raised to initiate an investigation. If the meter is found to be faulty then the mobilisation charge will be refunded. Where you appoint your own meter operator, you shall be responsible for all costs incurred if the meter is found to register inaccurately beyond the limits permitted under the Act. In any case, if the metering equipment is found to register accurately within the limits permitted under the Act then the cost shall be paid by the Party issuing the notice pursuant to this clause 7.9.

7.10 Yü Energy will appoint suitably qualified subcontractors of its choosing to provide metering services, except where the premises have half-hourly electricity metering points and you provide to Yü Energy a valid metering services agreement for meter provision and maintenance at those metering points and/or respective data services.

7.11 You shall be liable for all costs and liabilities reasonably incurred by Yü Energy as a result of your appointing, or your appointed representative nominating, suitably qualified sub-contractors to provide metering services, including an administration cost as set out on Yü Energy's website.

7.13 You shall notify Yü Energy as soon as reasonably practicable if you believe there has been damage to or interference with the metering equipment or communication equipment or interruption to a communication signal and you agree to provide Yü Energy with all information which Yü Energy may reasonably require in connection with the same. If you wilfully damage or interfere with any metering equipment or communication equipment or interrupt a communication signal Yü Energy may immediately terminate this agreement pursuant to clause 13.2(b) for your irremediable material breach.

7.14 Where premises require a Half-Hourly meter (or any other meter point upgrade as a consequence of your consumption), you shall, or request that Yü Energy shall, provide appropriate metering equipment including a permanent, functioning communications facility and Yü Energy may terminate any existing Agreed Supply Period from the date of installation of the new equipment and provide you with a new agreement and charge you all reasonably incurred costs.

7. Metering

9. VARIATION

9.1 Notwithstanding any other provision of this agreement, Yü Energy may vary any charges, including the agreed Supply Rates or pass through to you any higher or additional costs:

- (a) if any information provided by you, your representatives or subcontractors is untrue, incomplete, inaccurate or out-of-date;
- (b) as a result of any changes to the Act or any other legislation or industry regulations which determine the price of the utilities (including the cost of supplying the utilities to you);
- (c) if any changes made to your supply after the date of this agreement result in an increase or decrease in third party charges;
- (d) where a pass through of third-party charges is indicated in the quote;
- (e) where pass through of third-party charges is not indicated in the quote but where a change in such charges occurs as a result of a change in law, industry codes or agreements or a change introduced by the authority or as a result of a change in the structure or amount of third-party charges or the methodology used to calculate them;

9. Variation

- (f) you do not have or cease to use your own suitably qualified subcontractors;
- (g) as expressly provided for elsewhere in this agreement;
- (h) to the extent that any amendments or introductions are made to the CCL and/or any governmental or industry-imposed levies; and/or
- (i) in the event Yü Energy are required to make any Mutualisation Payment, or there are significant market factors increasing the cost of supply.
- (j) in the event that you refuse a Smart Meter installation; we are unable to contact you to arrange a Smart Meter installation; you cancel an installation date or the installation does not take place for any other reason; or your property is unsuitable for a Smart Meter.

9.2 Subject to clause 9.1 Yü Energy reserve the right to increase the charges arising under this agreement (including any tariff) by giving 30 days' notice if, due to circumstances beyond our control, the prevailing cost of supply to your metering point is greater than the Agreed Supply Rate. In the event charges are increased pursuant to this clause 9.2, you may end the agreement in accordance with clause 13.3.

9.3 Without prejudice to clause 9.2 to the extent that any amendments, additions or introductions are made to the Act or any other legislation, any regulation, codes, or industry guidance (including for the avoidance of doubt, Ofgem's Switching Programme), Yü Energy shall have the right to amend this agreement to ensure compliance with such amendment, addition or introduction and, to the extent necessary, you hereby agree to any such amendment.

9.4 Yü Energy may vary these terms at any time and those applicable from time to time shall be published at yuenergy.co.uk.

9.5 Yü Energy may increase the charges in accordance with the RPI annually or at a fixed percentage to the extent permitted by law and regulation.

10. CORPORATE BUSINESS PRICING

10.1 Notwithstanding any other provision in this agreement, if you are a Corporate Business, we set your Agreed Supply Rates based on the Estimated Yearly Consumption figures you supply to us which will be set out in the quote.

10.2 If your Actual Consumption is between the range of 10% (or other value as specified in the Quote) more or less than the Estimated Yearly Consumption, you will pay the amounts referred to in clause 6.2.

10. Corporate Business Pricing

10.3 If your Actual Consumption for electricity and/or gas is outside the range described in clause 10.2, we may charge, and you shall pay a reconciliation fee. The fee shall be calculated at our discretion, either as the units of gas and/or electricity under or over consumed against your Estimated Yearly Consumption, multiplied by the applicable Reference Price or as to the additional costs or losses incurred as a result of us having to buy or sell energy at a price different to that at the time of your agreement to the quote.

For purposes of clause 10.3 the following definitions have the following meanings:

“Actual Consumption” means the aggregate of all your Premises consumption of electricity or gas (calculated separately) for a Year or Agreed Supply Period if shorter than a Year;

“Electricity Reference Price” means 10% the annual average of the Market Index Price between the hours of 7am and 7pm supplied by the Market Index Provider in accordance with the Market Index Definition Statement;

“Estimated Yearly Consumption” means the annual consumption, or consumption if the Agreed Supply Period is less than a Year, for electricity or gas (calculated separately) as agreed in your Quote;

“Gas Reference Price” means 15% the annual average of the System Average Price;

“Market Index Data Provider” and “Market Index Definition Statement” have the means given to those terms in Section T of the Balancing and Settlement Code at www.elexon.co.uk;

“System Average Price” means the weighted average UK price of all trades for a Gas Day, as defined in the Uniform Network Code at www.gasgovernance.co.uk, on the Open Commodities Market platform.

10.4 Yü Energy shall be entitled to recover any amounts due under this clause by including it in any invoice issued to you.

10.5 You acknowledge and agree that the above charges represent a genuine estimate of Yü Energy's costs upon you consuming energy materially different to that agreed with Yü Energy and they do not represent a penalty. For the avoidance of doubt, you will not be charged at the Agreed Supply Rates for energy you do not consume, instead only the reconciliation fee for any non-consumed energy.

11. LIMITATIONS OF LIABILITY

11.1 Nothing in this agreement shall limit or exclude Yü Energy's liability for:

- (a) death or personal injury caused by its negligence, or the negligence of its employees, agents or subcontractors;

- (b) Yü Energy shall not be liable to you, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, arising under or in connection with this Agreement for: loss of profit; loss of business; depletion of goodwill and/or similar losses; loss of anticipated savings; loss of contract; any costs incurred from another supplier; any special, indirect, consequential or pure economic loss, costs, damages, charges or expenses.

11.3 Yü Energy shall not be liable to you if the utility supply has been stopped, interrupted, delayed or reduced due to you or your network operator's acts or omissions.

11.4 Except as expressly and specifically provided in this agreement, all warranties, conditions and other terms implied by statute or common law are, to the fullest extent permitted by law, excluded from this agreement.

11.5 Where any of the Industry Agreements requires the Gas Transporter (as defined in the relevant Industry Agreement) and/or us to do anything which could affect the supply to the metering point, neither we, nor the Gas Transporter, shall have any liability for any loss or damage suffered by you for complying with that requirement.
